Company Profile

GyneKare is a sister concern of Ortho Tech. Ortho Tech was established in 1988. Since then we have been striving hard and also have equipped ourselves with the latest technology. Now after 30 years of excellence and glory, we feel proud to say that we are the leading manufacturers of Orthopaedic Implants and Surgical Instruments. We have a vast technical experience and a fully skilled and equipped workmanship in producing a full range of Orthopaedic Implants and Surgical Instruments.

GyneKare is also a state of the art project. We have been in the field of surgical instruments for 30 years, in all this time we have a continuous market demand of instruments used in the gynecology and obstetrics. As evident from the name **GyneKare**, we shall produce all the range of the instruments used in the gynecology and obstetrics procedures.

GyneKare is an idea not only based on the market demand but there is also a motive of service and well being of the mankind as we are already serving this purpose under the name of **Ortho Tech**.

Our major concern is quality. We at **GyneKare**, will make it sure to maintain the quality by following all the International Standards of Quality.

Rest assured, **GyneKare** will prove itself as one of the major contributors in the field of manufacturing the surgical instruments used in the gynecology and obstetrics.

Advantages

- Optimal visibility with ultrasound.
- Less traumatic because of the bulb shaped end.
- Even when strongly flexed the obturator is extremely easy to remove.
- After removal of the obturator the catheter is still easy to manipulate in all directions.
- The placental area is easy accessible due to the softness of the catheter, even in case of an unfavorable position of the uterus.
